

SUST CSE SOCIAL NETWORK

Setup Instructions

Summit Haque
Asif Mohaimen

May 8, 2017

- Download JDK from this link below:
<http://www.oracle.com/technetwork/java/javase/downloads/jdk8-downloads-2133151.html>
Set up JDK.
- Download Netbeans IDE from the link below:
<https://netbeans.org/downloads/index.html>
Download the version with all supports. Go through the setup process.
- Download mysql community server from the link below:
<https://dev.mysql.com/downloads/mysql>
Set it up.
- Clone our project from github using the following commands:

```
$git init  
$git clone https://github.com/saumiko/sustcsesocial.git
```
- After you're done with it open this project in Netbeans IDE. Add the following classes in the location: `your_project_directory/src/DBMS/`
 1. <https://git.io/v9sTU>
 2. <https://git.io/v9sTZ>

At line 27,28,29 at the ConfirmationMail class update your gmail credentials. At line 25,26,27 at the ForgotPasswordMail class do the same. Make sure you have the acceptance for 3rd party applications in your gmail account.
- Import the database in your mysql server from here: <https://git.io/v9sT7>

- Populate your student table with queries like it is shown in here: <https://git.io/v9ske>.
- Update your database credentials in the `DatabaseInfo` Class.
- Run the project and browse.

You're good to go now.
